IMS

CENTRALIZED DIGITAL PLATFORM FOR INSTITUTE MANAGEMENT OPERATIONS
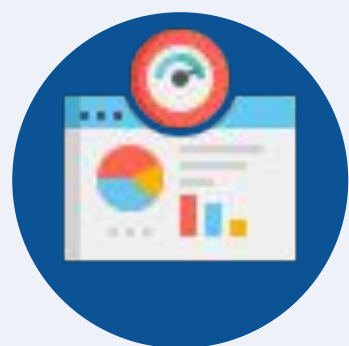

Powered by TECHCEN

ABOUT IMS

Revolutionize Your Training institute business`s Efficiency with IMS - an Integrated solution for Institute Management

Institute Management Software (IMS) is a type of software designed to help manage the day-to-day operations of an educational or training institute. It is a comprehensive system that streamlines various administrative and academic processes, including student enrollment, class scheduling, attendance tracking, batches management, certificate generation and expenses management

ABOUT IMS

IMS

IMS can be used by schools, colleges, universities, training centers, and any other educational institution that needs to manage large amounts of data and streamline their operations. The software can be customized to meet the specific needs of the institution and can be used by administrators, faculty, and students alike.

EXISTING DIFFICULTIES

IMS

Decentralized
Customer
Data

Unmonitored
Marketing
Efforts

Manual
Process
Governance

Lack of tracking
expenses and
payments

Predictive Analytics

The benefits of using IMS include increased efficiency, improved communication, better data management, and reduced administrative workload. By automating many of the routine tasks associated with managing an institute, IMS can free up staff to focus on more strategic tasks, such as curriculum development and student engagement.

IMS Modules

IMS is designed with standard features and functions applicable to a wide range of training centers. The platform can be tailored to the specific needs of each business.

|		
Leads Management	Finance Management	e-Files Management
